

Co-Active Coaching: Fundamentals (CTI)

NEW: first Fundamentals in Dutch! 13-15 October, Amsterdam

Co-Active Coaching describes the dance between the coach and the client, which is created in the moment. It is a unique, proactive alliance in which coach and client work together as equals to meet the needs of the client.

Principles

The offered courses are designed to teach that subtle dance and focus on experiential learning where participants experience and practice coaching instead of just talking about it. CTI's coaching curriculum is designed to integrate Co-Active coaching competencies deeply in your being rather than in your head, so that you can be responsive in the moment to a variety of client types and needs. Once you have completed this curriculum you will have the ability to coach with confidence in your own personal, authentic style.

Outcomes

After having finished the fundamentals course you are initiated in the Co-active coaching model and are able to:

- use the four cornerstones of Co-Active Coaching
- communicate using the five contexts of Co-Active Coaching
- use the Life (Balance) wheel
- distinguish and use the three levels of listening

Competences

In this training you will be working on the following competences:

- audacity
- cooperation
- learning capacity interactively
- listening
- link capacity

Target group

- individuals who want to become professional coaches
- people wanting to acquire new communication and relationship skills in their work and personal environment-management: managers, HR business partners, health professionals, teachers, parents, etc.
- individuals in vocational transition who want a new career

Prerequisites

It is important that participants of the co-active coaching have affinity with coaching and that they are able to talk, read and write in English as the course will be given in English.

Program

The core curriculum consists of five courses. Each course is a three-day intensive course based on experiential learning. The total co-active coaching curriculum has been accredited by the International Coach Federation (ICF).

Fundamentals is CTI's foundational Co-Active Coaching skills course. Whether you are interested in using coaching skills in your current profession, considering a career in coaching or just wanting to improve your communication with the important people in your life Co-Active coaching Fundamentals could be something for you. Hands-on training provides a powerful introduction to the techniques and skills of Co-Active Coaching. The focus is on participation and practical experience rather than lecture, with numerous opportunities to coach and receive feedback on your newly acquired coaching skills. At the end of the course you will have a very clear idea just how coaching might fit into your life. The co-active workshops will be given in English by two experienced international coaches of the Coaches Trainings Institute (CTI).

Duration

The fundamentals workshop is a 2,5 day course.
